What is Stage Impact?

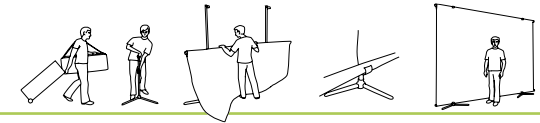

Stage Impact is a collection of Stage displays that are easy to use and quick to set up. The range covers almost every marketing need. Stage Impact has four variations. With these variations, you can make straight or curved walls (4.40 - 7.70 meters wide), hanging shapes in various formations and trade fair displays that range from 4x2 - 7x2 meters. All displays are 2.25 and can be extended to 2.50 meters high. Stage Standard is simple and elegant.

Why choose Stage Impact:

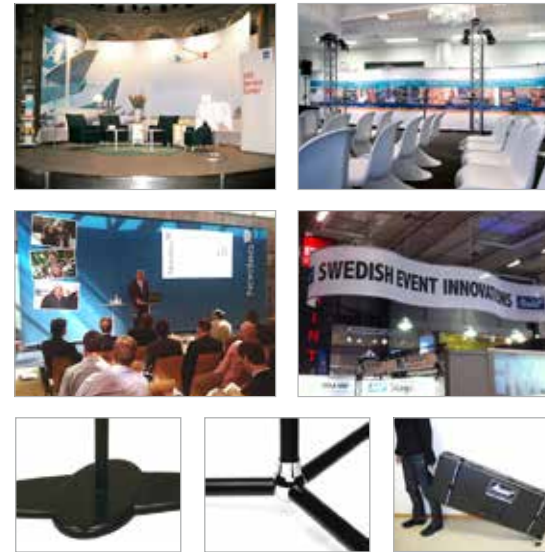

- Fabric is the future. Get tomorrow's technology today
- Stage is unique to Maxibit
- Stage is perfect for public spaces, congresses, company events and trade fairs
- Stage is compact to transport and gives you a huge marketing surface area

How big do you want it?

Stage Modular is the perfect solution for you who wants to build large marketing surfaces on your own terms. Stage Modular is a selection of loose Stage parts that allows you to quickly assemble a Stage backdrop or hanging creation in any number of shapes, sizes and curves. Stage Modular allows you to build in terms of height, width and various curvatures. Heavy duty hangers allow you to hang everything from the ceiling.

Why choose Stage Modular:

- Stage Modular is perfect for those with Stage experience that want a great custom effect
- Perfect for spaces that aren't conventional
- Ideal for large spaces such as scenes and convention halls
- Great for creating your own marketing space tailored to your brand

Footprints

Ideas

Seamless graphic precision

Network is a very compact and versatile pop-up system that is quick to set up at any location. It allows you to meet your customers where they are, rather than having them come to you. Network can be designed in a number of different shapes; straight, curved, wave-shaped, stair formations, double or single sided and many more.

With Network Frost, you can turn the standard display system into a refined shelving system for a walk around experience of your displayed products.

Why choose a Network

- Unlimited layout options
- Continuous seamless graphics
- Quick to set up and easy to mount graphics
- Stable design with a professional look
- Adjustable feet for uneven floor
- Create showcases with Network Frost™ shelves

 850 mm and 1185 mm.

HEIGHT
 Standard 2250 mm (adjustable, 900–3000 mm).

WEIGHT
 Approx. 4 kg with graphics and flight bag.

Footprints

Ideas

What's your best choice of roll-up?

There is a significant difference between Zap and other roll-ups. With Zap D2 and D3, you can be assured that your message is delivered with the strongest impact and the highest quality. Zap comes in two designs. D2 is the most compact while D3 has no visible, protruding foot on the floor. Zap is 100% recyclable for a better environment. With Zap D2 and D3 you will always be prepared – meet your customer whenever, wherever. When it's time for your next campaign, you can change your message in less than a minute without the need for tools.

Why should I choose Zap

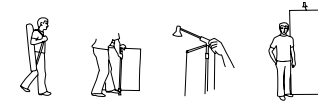

- Clever Gripper profile
- Fast and easy graphics exchange
- Adjustable with a quality Swedish design
- 2 designs and 2 widths; 4 versions
- Generous graphic dimensions
- Adjustable height, 900–3000 mm
- Drop-in pole cup for easy set-up
- Excellent for the environment; re-usable and recyclable
- Accessories: Spotlight, brochure holder, presentation desk

 Solo 3 850/610 mm

DESCRIPTION
 Aluminum alloy banner stand with telescopic pole. Re-usable Gripper profiles for snap-in graphics. Flight Bag with pocket for spotlight.

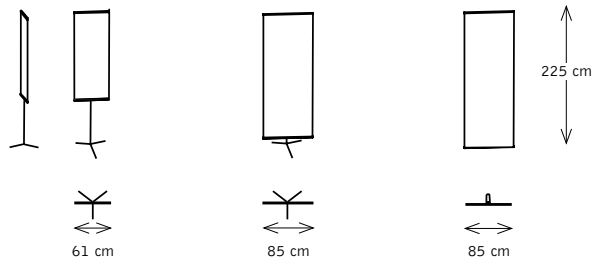

GRAPHIC MATERIAL
 All common materials, e.g. polyester.

WIDTH
 850/610 mm.

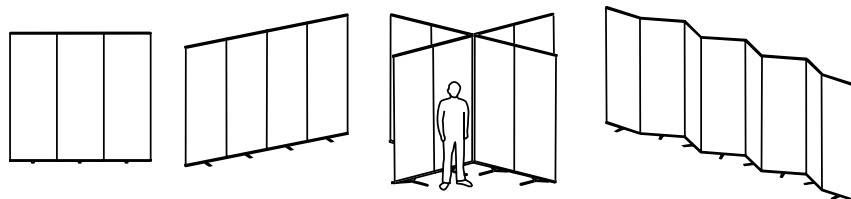

HEIGHT
 Adjustable up to 225 cm.

WEIGHT
 1.2 kg excl. graphics and flight bag.

Footprints

Ideas

What's your best choice of banner stand?

Solo is ultra-compact, yet fully equipped like no other. The Solo 1 and Solo 3 banner stands have unique, clever features for your successful campaigns. Solo 1 has no visible foot on the floor. Solo 3 has an elegant, fold-out tripod foot. The telescopic pole and a bottom slider give height to be adjusted to fit your preferences. Solo can be seamlessly connected side by side, straight or at an angle, thanks to built-in power-magnets. Clever Gripper profiles allow for fast and easy graphics exchange without tools or tape. Solo is 100% re-usable and recyclable, kind to the environment.

Why should I choose Solo

- Clever Gripper profiles for the easiest graphics exchange
- Ultra-compact for smart carrying
- Adjustable height, top profile 1000–2250 mm, bottom profile 0–750mm
- 2 designs, 2 widths, 4 versions
- Multiple Solos side by side create impressive larger backdrops
- Built-in power-magnets allow for straight or angled lineup
- Accessories: Spotlight, brochure-holder, presentation desk

Sturdy nylon bag

Travels with the brochures

Long-lasting and user-friendly

Eagle has been engineered to be the perfect compliment to any marketing display. Its timeless design and quick set up means that it can be deployed any time and anywhere. Its small foot-print and low centre of gravity allows it to be placed in the most crowded areas but for maximum impact the system is best used in tandem with other products in the Maxibit range. For the campaign trail, use Eagle with Maxibit Zap for a subtle yet powerful shopping mall display, while at the trade fair, several Eagle used side by side can add elegance to your booth.

Why choose a Eagle

- Quick to set up with auto-locking mechanism
- Works in any environment
- Comes in two different colours
- One of the lightest brochure holders available
- Brochures can be transported safe in the stand
- Delivered in handy nylon carrying bag

iPad Stand

Specifications: iPad Stand

DESCRIPTION
Lightweight lockable stand for your iPad tablet.

WIDTH
49.5 cm

HEIGHT
117 cm

WEIGHT

Height 117 cm (46")

49.5 cm (19")

What is iPad Stand?

The iPad Stand is a lightweight lockable stand for your iPad tablet. It's a versatile and functional stand that can be used with iPad 2, iPad 3 and iPad 4 in any environment. The angle can be adjusted and the iPad can be displayed in both landscape and portrait orientation. The sturdy tripod foot ensures total stability.

Why choose a iPad Stand?

- Quick to set up and easy to carry
- Works in any indoor environment
- Rotates 360° for portrait or landscape orientation
- Lockable holder to secure your iPad tablet

Stage Table

Specifications: Stage Table	
DESCRIPTION	A portable bar height cafe table
WIDTH	49.5 cm
HEIGHT	96 cm
WEIGHT	8 kg

Footprint

49.5 cm (49")

Height 96 cm (37 3/4)

What is Stage Table?

The Stage Table is a modern version of a bar height cafe table that is collapsible, light to carry and easy to set up. The table is a perfect meeting point at any event. Use a single table or in a group, together with a backdrop wall or on its own.

Why choose a iPad Stand?

- Intuitive and easy set up
- Large base for maximum stability
- Completely collapsible and portable
- Delivered in two nylon carry bags
